

## Regional Session II Discussion

### Suggested Agenda

Focus: The focus should have emerged from what people said in the closing for Session I. The facilitator team can ask the group whether they are happy with the focus proposed.

1. Gathering
2. Agreement on the focus of the session
3. A process for discussing the issues people raised in Session I. If there is small group discussion, form new groups so more people get to know each other.
4. Light & Lively / energiser – could be creating a group sculpture (see note below)
5. Explanation and planning for Session III.
6. AVP-style evaluation of Sessions I & II.
7. Closing – could be the group sculpture if not done in 4.

Note: Each region is invited to create a group 'sculpture' representing AVP/nonviolence/peace. It could be static, or have movement. Presenting the sculpture and newsprint records will form part of Session III.
