

Regional Session III Let's Get Together

Agenda

Everyone gathers in the plenary room with their regional group in the area designated for their region.

The 'maps'/newsprints from Sessions I & II should be stuck up on the walls beforehand, according to regions.

Some of the regional group members stay at the regional stations to explain their reports and answer questions, while the others walk around to the regional stations to view the records and talk to people from the other regions; then they swop places so that everyone gets a chance to walk around.

The session ends with each region recreating their sculpture for others to see, and then all combining into one giant group sculpture.
